"We delivered solid growth in the second quarter, driven by continued momentum in our subscription business and strong demand for our content and services with acceleration across Corporate, and a return to growth in Media," said Craig Peters, Chief Executive Officer at Getty Images. "We executed well, delivering our fifth consecutive quarter of revenue growth with healthy operating metrics," said Jennifer Leyden, Chief Financial Officer at Getty Images. "As we look ahead, we will continue to emphasize execution, fiscal discipline and building momentum into the back half of the year."

 - Annual Subscription Revenue as a percentage of total revenue grew to 53.5% from 52.9% in Q2'24.
- Net Loss of \$34.4 million, compared to a Net Income of \$3.7 million in Q2'24. Included in the Q2'25 results are:
 - \$57.2 million increase in foreign exchange loss primarily due to revaluation of the Euro Term Loan, and
 - \$10.9 million decrease in income from operations primarily due to approximately \$14.4 million of merger related expenses.
- Net Loss Margin for Q2'25 was 14.6% compared to Net Income Margin of 1.6% in Q2'24.
- On a non-GAAP basis, adjusted Net Income* was \$22.2 million, as compared to \$7.1 million adjusted Net Income* in the prior year.

- Free cash flow* of \$(9.6) million in Q2'25, compared to \$31.1 million in the prior year period.
- Ending cash balance on June 30, 2025 was \$110.3 million, down \$10.9 million from the ending balance on December 31, 2024 and down \$11.4 million from June 30, 2024. The year-on-year decrease reflects voluntary debt paydowns over the past twelve months, quarterly amortization on the Euro term loan, and outflows related to the refinancing transactions completed in the first half of 2025, partially offset by the benefits of foreign currency. The Company has \$150.0 million available through its Revolver, which remains undrawn, for total available liquidity of \$260.3 million.
- During the quarter, the company completed a permitted voluntary loan to bond exchange for its \$580.0 million of USD fixed rate loans. In total, \$539.9 million of loans were exchanged into new fixed rate notes with the same maturity and 11.25% rate as the USD fixed rate loans.

Non-GAAP Financial Measures

In order to assist investors in understanding the core operating results that our management uses to evaluate the business and for financial planning, we present the following non-GAAP measures: (1) Adjusted EBITDA, (2) Adjusted EBITDA Margin, (3) Adjusted EBITDA less capex (4) Adjusted EBITDA less capex Margin, (5) Adjusted Net Income and Adjusted Earnings Per Share and (6) Free Cash Flow. The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with U.S. GAAP.

The Company believes that these measures are relevant and provide useful information widely used by analysts, investors and other interested parties in our industry to provide a baseline for evaluating and comparing our operating performance, and in the case of free cash flow, our liquidity results. We also evaluate our revenue on an as reported (U.S. GAAP) and currency neutral basis. We believe presenting currency neutral information provides valuable supplemental information regarding our comparable results, consistent with how we evaluate our performance internally.

Reconciliations of these non-GAAP measures to the most comparable GAAP measures are provided below.

The Company does not reconcile its forward-looking non-GAAP financial measures to the corresponding U.S. GAAP measures, due to variability and

difficulty in making accurate forecasts and projections and/or certain information not being ascertainable or accessible; and because not all of the information, such as foreign currency impacts necessary for a quantitative reconciliation of these forward-looking non-GAAP financial measures to the most directly comparable U.S. GAAP financial measure, is available to the Company without unreasonable efforts. For the same reasons, the Company is unable to address the probable significance of the unavailable information. The Company provides non-GAAP financial measures that it believes will be achieved, however it cannot accurately predict all of the components of the adjusted calculations and the U.S. GAAP measures may be materially different than the non-GAAP measures.

Reconciliation of Adjusted Net Income and Adjusted Earnings Per Share

Adjusted Net Income and Adjusted Earnings Per Share are non-GAAP financial measures that we use to provide a more meaningful comparison of our core operating results from period to period. These measures exclude the impact of certain items that we believe are not indicative of our core operating performance. These adjustments include, but are not limited to, foreign exchange gains (losses), net and other non-recurring items. The following table reconciles Net Income (Loss) and Earnings (Loss) Per Share, the most directly comparable GAAP measures, to Adjusted Net Income (Loss) and Adjusted Earnings (Loss) Per Share for the periods presented:
